

Cancer Center Membership

The primary objective of the University of Cincinnati Cancer Center is to promote cross-disciplinary collaboration across the University, Cincinnati Children's, and UC Health to enable cancer research to move fluidly and efficiently from bench to bedside. Collaboration is what will drive our vision for a center that excels in cancer care, research, training, and community impact. Our membership program unifies cancer research under one administrative umbrella, providing the infrastructure and support researchers need for effective collaboration.

Benefits of Membership

- ✔ Opportunity for pilot project funding from the Cancer Center.
- ✔ Ability to collaborate with members and access to the Cancer Center's Clinical Trials Office.
- ✔ Marketing, communications and PR support for successful research initiatives.
- ✔ Priority access to limited-capacity retreats, lectures, seminars and journal clubs.
- ✔ Access to Research Logix, the Cancer Center's research database to view information about grants, publications, collaborations and mentoring activities.
- ✔ Access to the Shared Resources comprehensive technologies and services of the Cancer Center

4 RESEARCH PROGRAMS

- ✔ Signaling Networks & Metabolic Pathways in Cancer Progression
- ✔ Experimental Therapeutics
- ✔ Cancer Prevention & Surveillance
- ✔ Pediatric Oncology

250+ MEMBERS

Members hold faculty appointments from 8 UC Colleges and come from UC, Cincinnati Children's, and UC Health.
