

Industrial Hygiene Safety Technician Certificate Program

Who are we?

Great Lakes OSHA Education Center! We are an OSHA authorized Education Center located within the University of Cincinnati's Department of Environmental and Public Health Sciences. We offer a wide selection of health and safety training courses designed to help broaden worker and employer knowledge on the anticipation, recognition, evaluation, control, avoidance, and prevention of hazards in their workplaces.

How can you benefit?

The Industrial Hygiene Safety Technician Certificate allows **Safety Directors, Industrial Hygiene Technicians, and Other Occupational Health Professionals** to enhance their education in the practice of Industrial Hygiene. The coursework in this certificate program will assist you in developing strategies to sample occupational environments and to interpret the data relative to OSHA standards with the goal of preventing occupational illnesses in your workplace.

Required Courses

(76 total contact hours)

OSHA#521- OSHA Guide to Industrial Hygiene (26 contact hours)

OSHA#7205- Health Hazard Awareness (6 contact hours)

OSHA#2225- Respiratory Protection (26 contact hours)

OSHA#2255- Principles of Ergonomics (18 contact hours) *

**Did you know? All courses listed above will satisfy the elective requirements for the Department of Labor's Safety & Health Fundamentals Certificate Program for both Construction and General Industry.*
