

Spread the Tests, It's for the Best!

Increasing Access to Fentanyl Test Strips Throughout Cincinnati

We propose adding boxes installed in public spaces around Cincinnati neighborhoods with high rates of fentanyl overdose

Xylazine is almost always found with fentanyl

Positive fentanyl test result decreases drug use behavior

Increased need for publicly-available fentanyl test strips

Social Determinant of Health: Access to healthcare

Focus on harm reduction for people who use drugs

Reduce fentanyl related overdoses (and thereby reduce cost to healthcare)

Target population is homeless and other at-risk populations
