B. INTERRUPTIONS DURING AN ELECTRONIC EXAMINATION

1. All **emergency calls** for students while taking examinations should be directed to the Registrar's Office. The Registrar or their designee will take a message for the student and inform the proctor that the student has an emergency call. The student will be escorted to the Registrar's Office to receive the call. After discussion with the student, the clerkship coordinator and the student will decide whether the student may return to the examination or will need to reschedule the examination. Documentation (police report, hospital report, etc.) confirming the emergency must be submitted to the Registrar within 72 hours of the emergency. The student will have the option to reschedule their examination on the clerkship's make-up date or follow the official scheduled retake dates posted on the EPC approved M3 academic calendar (June or December, whichever comes first). Students can discuss optimal timing to make-up the examination with Student Affairs prior to picking a make-up time.
2. If a **student becomes ill** while taking an examination, such that they are unable to complete the examination, the student must inform the proctor that they are unable to complete the examination so that the incident can be documented. The proctor has discretion to excuse the student in cases of obvious illness. Or the proctor can require written documentation of illness from a non-family member physician the same day of the examination in order for the absence to be excused, in which case documentation of the illness must be submitted to the Registrar within 24 hours of return to coursework. The student will have the option to reschedule their examination on the clerkship's make-up date or follow the official scheduled retake dates posted on the EPC approved M3 academic calendar (June or December, whichever comes first). Students can discuss optimal timing to make-up the examination with Student Affairs prior to picking a make-up time.
3. Should **computer or network interruptions** occur during a web based exam causing loss of or sporadic connectivity the student must notify the chief proctor. The proctor will advise the student to restart the exam. This involves closing the exam and logging back into the exam following proctor and exam site specific directions. DO NOT RESTART the computer.
4. If restarting the interrupted exam does not alleviate the connectivity issue, HSL IT support must be consulted and their instructions followed.
5. If a **fire alarm or other emergency condition** occurs during an examination, students will immediately cease taking the examination and, if necessary, evacuate the affected buildings. All materials should be left at the desk.
 - a. Proctors will ensure that all students leave the examination rooms in a timely manner. Instruct students to close the browser - enter Ctrl+Shift+Q – to prevent losing time. Room proctor should log out of the exam session.
 - b. Students may be directed to evacuate to a specific location.
 1. G-Level of the Care/Crawley Building, students should evacuate to the outside plaza adjacent to the E- level entrance of the CARE/Crawley building unless otherwise directed by the proctor.

area. The student must remain in an area where they can hear the all clear announcement.

- d. The examinations timing mechanism will be suspended by notification to the NBME by the chief proctor or the IT supervisor.
 - e. Students may not discuss the examination with any other person, or access any type of information related to the examination. Honor Council policies are in effect, and students should monitor themselves and others to ensure compliance. Any student who is found to have communicated inappropriately with classmates with respect to the content of the examination will receive a zero for that examination and will be referred to the Honor Council with no other right of appeal or grade grievance.
 - f. After the fire alarm or other cause of interruption has ended, students will return to their assigned room in a timely manner (within 15 minutes) and resume the examination when announced by the proctor to do so. Students returning later than 15 minutes following the all clear signal will not be admitted to the testing room. The student will receive credit for any answers they submitted prior to the interruption. The student will not be permitted to reschedule the examination.
 - g. The IT examination coordinator will work with NBME or the exam site to resume the examination timing mechanism after adding additional time equal to that lost during the interruption (length of the alarm plus 15 minutes to return).
 - h. In the event of a prolonged interruption such as a computer or power outage, the proctor may decide to suspend the examination and reschedule following the rules consistent with the INCLEMENT WEATHER POLICY.
6. **Irregular student behavior incidents** may include evidence of copying answers from classmates, giving or receiving unauthorized information, being in possession of unauthorized materials, making unauthorized notes, recording examination content via any means (manual, digital imaging, etc.), continuing to answer questions after the examination has ended or engaging in other behavior disruptive to fellow examinees.
